

## BREVIGLIERI B123 ROTARY HOE

Soil cultivation is essential to the success of all other crop operations. It has a direct impact on the conservation of the soil, as well as its level of fertility and productivity. Italian-made Breviglieri machines are the popular choice for farmers and contractors converting previous uncultivated ground into a highly productive seed bed or growing environment. The B123 Series covers working widths from 2.0 metres through to 3.0 metres for 60 - 120 hp tractors.
