

CELLI SPIKE ROTOR (FOLDING) - PIONEER 260-P

TRACTORS FROM 150 -260 HP

Considered the intermediate model of Celli's product range, this machine is made for tractors with power ranges up to 260 HP. A new version of the Pioneer 260 P is now available with the following technical improvements:

- new redesigned central hitch that is more rigid and light
- new connection arms that are now welded to the side units, rather than bolted, to ensure greater rigidity
- more effective shape of the central area, which practically eliminates the unprocessed soil in the space that remains; it is lightweight for optimal use, even during transport; it is made for tractors with power ranges that start from 150 HP.

PRODUCT DETAILS

Make	Celli
Model	Pioneer 260
Working Width	4000mm, 4500mm, 5000mm
Tractor HP	260hp (max)
Weight	2850kg, 2940kg, 3230kg
Overall Width	4120mm, 4620mm, 5120mm
SKU	CELLI-40
