- 10 metres of 10mm hose on hose reel with spray lance
- XT boom kit fitted

#### XT BOOM KIT

The Croplands XT boomless nozzle kit enables your spray application to be targeted into places a conventional boom may not reach. This kit delivers a uniform spray pattern over a distance of up to 6.5 metres (a wider swath may be possible if the kit is mounted higher than the 90cm as stated in the table below).

Ideal uses include forestry – spraying under trees; farm tracks and undulating pasture land.

Other useful features and uses include:

- Under trees in orchards
- Golf courses and turf applications
- Hedge rows and fencelines
- Firebreaks
- Large droplets for reduced drift risk and to assist with coverage on woody weeds
- Spraying around obstacles where a conventional boom is not able to be used
- Standard set up is with #10 nozzles as per the chart\*.
