- White polyethylene UV stabilised tank, with calibrated sight gauge, large filling lid and basket strainer
- Tank and frame unit is designed to bring weight as far forward as possible for maximum safety and weight transfer onto rear wheels of the tractor
- 2" Camlok top-mounted quickfill point for filling main tank (flushing and hand wash tank filled externally)
- 15 litre fresh water hand wash tank standard
- 170 litre flushing tank with integrated clothes locker fitted standard
- Tank agitation (Venturi type) fitted, driven from pump manifold

FRAME

- Steel frame for maximum strength and durability, epoxy coated for corrosion resistance
- 1000mm hydraulic lift device integrated as part of the main frame for boom lift
- Fixed height step for access to top of tank if needed
- Slide-out supports for parking when unit not in use
- Forklift points integrated into base of frame

HITCH

- Category I and II linkage points standard

PUMP

- AR135 (135 L/min, 0–20 bar), PTO driven positive displacement, oil bath diaphragm pump with chemical resistant diaphragms (optional AR160 pump available)

CHEMICAL HANDLING

- Optional suction probe for drawing chemical straight from containers into main tank

BOOM

- Galvanised BDX Hydralink booms in 12 and 15 metre configuration can be fitted
- Booms fitted with AirMix® 02 air-induction low drift nozzles standard
- Nozzle protection fitted to boom with stainless steel boom lines for easy clean-out

CONTROLLER

- Manual-tap 3-section controller fitted standard
- Optional electric controls with 3 section motorised boom valves, in-cab console and electric pressure control fitted – master switch for switching all sections off simultaneously
- Optional: Bravo 180 automatic spray rate controller

FILTRATION
