

GRILLO CLIMBER 10 AWD 22

Grillo Climber 10 AWD 22 is an exceptional flail mower on slopes. The permanent 4-wheel drive together with the powerful engine, with 22 HP at the bench, 18 HP net, make it brilliant even on steep slopes and on terrains with reduced grip.

The cutting yield even in very high grass and shrubs with a diameter up to 25 mm make the Climber 10 an ideal machine in agriculture and for professional use.

The compact dimensions, designed for the best performance on slopes and the Kanzaki hydrostatic transmission with differential lock of the rear axle make it a safe mower for the user, reliable in every situation and exceptionally stable.

PRODUCT DETAILS
