

## GRILLO FD 280 MOWER

The FD 280 is a high performance mower in terms of its quality cut and collection. The innovative cutting system “Grillo Overblow” produces an increased acceleration of the grass/air flow into the discharge chute which considerably raises its collection capabilities even in wet,damp conditions whilst at the same time keeping noise levels of the whole system very low. The front mounted cutter deck allows excellent visibility over the area to be cut. Control is via a steering wheel, the compact size and very tight turning circle makes the FD 280 an easy to operate machine making it ideal for the professional user operating in tight areas.
