

## JBI HEAVY DUTY RANGE GRADER BLADES

All of this range of grader blades are available with angle and tilt functions. The blade can be rotated 360 degrees with 24 different positions. The tilt function is operated by adjusting the linkage pin mounting positions. The 0007 MD grader blade has additional tilt through the ratchet or optional hydraulic ram. The standard model, medium duty model and heavy duty model all come with offset functions. Rippers are available on the medium duty model if requested. All models are available with an optional wheelkit for depth control which is adjustable from the tractor seat. All blades are fitted with heavy duty hardened reversible cutting edges.
