

JBI TH30 LINKAGE TANDEM DISC PLOUGH

The TH30 tandem disc cultivating plough is designed for Australian conditions and is one of the strongest three point linkage disc ploughs available. It is an ideal disc for both primary and secondary tillage on 45 H.P. to 90 H.P. tractors. The gang bolt axles are made from 28mm square high tensile steel and all bearings are triple sealed with added protection plate. Fitted with 560mm x 5mm (22" x 3/16") or 610mm x 5mm (24" x 3/16") scalloped discs. Twin pressure screws can be adjusted individually to transfer weight to the rear of the cultivator resulting in even disc penetration. Easy gang adjustment provides a perfect level finish. Prong type scrapers are optional.

PRODUCT DETAILS

Make	John Berends Implements
Model	TH30
Size	16, 20, 24 plate
Weight	780kg, 860kg, 940kg
No. Bearings	8
Cutting Widths	1825mm, 2300mm, 2740mm
No. Axles	4
SKU	JBI-23
