

JBI TWIN ROTOR SLASHER

Three point linkage twin rotor slashers are available in 8', 10' and 12' widths and come standard with solid rubber castor wheels. Trailing rotor slashers are available in 10' and 12' widths only and are fitted with 14" Holden wheels as standard. Horsepower requirements largely depend on terrain and what is being cut, however the following specifications are a guide. The top plate is 5mm thick and the fixed skids are 6mm thick. There are two outer gearboxes driven by a centre T gearbox. There is a two plate slip clutch between each box. The blades are not timed, just missing each other by approximately 3mm. Wheels are adjusted by a ratchet link as standard, with a hydraulic option available. Chains can be fitted on request.

PRODUCT DETAILS

Make	John Berends Implements
Model	0101, 0102, 0104, 0112, 0114
Size	10', 12', 3 point linkage - 8', Trailing - 10'
Weight	621kg, 825kg, 875kg, 925kg, 975kg
Cutting Width	2350mm, 2950mm, 3550mm
Tractor HP	60hp, 70hp, 80hp
Dimensions	2480 x 1370 x 580mm, 3080 x 1650 x 580mm, 3680 x 1960 x 580mm
Tractor CAT Connection	cat 1+2, Drawbar
SKU	JBI-57
