## PRODUCT DESCRIPTION

Standard Features:

- Joystick Valve
- Auto PTO
- Remote Valves (2)
- 7-Pin Socket
- Tilt Steering Wheel
- Heater and A/C (cabin tractor)
- CD Player (cabin tractor)

Engine & Transmission

The exceptionally quiet KIOTI diesel engines produce little vibration at working speeds and meet or exceed all EPA and CARB regulations through optimal combustion and fuel economy.

The NX Series Kioti tractors feature a performance proven heavy duty HST transmission that delivers power smoothly and efficiently. The 3-speed ranged transmission with separate twin pedals makes the job easier, smoother and safer.

The NX6020 Cabin tractors have been equipped with a performance proven, heavy duty HST drive unit. Changing between forward and reverse is done without clutching or hand shifting with the dual pedal controls system. With the KIOTI HST drive system your hands remain free for steering and implement control.

Operators Station

NX Series Cabin

The new comfortable cabin with upgraded interior will minimise operators fatigue even after long days of work. The front glass with improved wiper position and cabin sealing method provides better visibility and improved noise protection.

NX Series ROPS

A new designed LCD panel provides all necessary information offering high-visibility through symbols and letters with LED lights and easy to reach and operator controls. The LCD monitor also displays PTO revs, fuel indicator and engine temperature.
