

# MASCHIO GASPARDO POWER HARROW - GABBIANO 5000C

The Gabbiano folding power harrow is recommended for medium-large farms. It's robust, reliable with limited weight to match tractors from 120 HP to 280 HP. It's equipped with multi-speed gearbox to better adjust to the different working requirements. The market demand for increasingly high performance equipment but at the same time versatile and reliable led the Maschio Gaspardo R&D team to revise the HD power harrows range. The main changes have affected the structure of the rotors and transmission groups. Larger sections and always more resistant and reliable bearings allow to increase the loading power of up to 20%.
