

## MASCHIO GASPARDO MULCHER - TERMINATOR 180

Residue mulching is a very important and somewhat tricky phase as it enhances subsequent decomposition processes, helping residues break down into organic matter. The MULCHERS range, catering to the small and large scale needs of farms and farmers, is a winning solution for dealing with grass, brush, crop residue and prunings. Every MASCHIO GASPARDO machine - from the lightest, compact models to the heavy-duty high-performance workhorses - is the product of the experience we have gained over the years. Reliability and high quality are the result of continuous innovation and ongoing research.

### PRODUCT DETAILS

<b>Make</b>	Maschio Gaspardo
<b>Model</b>	TERMINATOR-180
<b>Working Width</b>	1720mm
<b>Overall Width</b>	1920mm
<b>Tractor HP</b>	55-100hp
<b>Weight</b>	475kg
<b>SKU</b>	MG-TERMINATOR-180

## PRODUCT DESCRIPTION

Features:

- Soil moisture is conserved
- Heavy duty gearbox with free wheel mechanism
- Robust frame
- Metallic guards
- Side skids for adjusting chopping height

Mulching Chamber

The mulching chamber of the Terminator has been designed for most efficient mulching of sugarcane trash, cereal crop residue, cotton plants and orchard trimmings.

The size of the chambers has been optimised in order to attain highest mulching quality, considering the volume of residue generated by target crops.

Gearbox

The heavy duty gearbox is capable performing under intense mulching load for long working hours.

The free wheel mechanism protects the tractor and machiner PTO shafts from sudden stoppage of the PTO.
