

MASCHIO GASPARDO SURFACE DISC CULTIVATOR - VELOCE 200C

The VELOCE is a light disc harrow for shallow seedbed preparation (up to 10 cm). Discs are arranged on 2 rows with opposing disc direction; wide spacing (620 mm) between rows prevents any soil and crop residue clogging.

Every disc has its own independent hub with super-sealed long-life bearings lubricated in oil bath; maintenance time is kept to a minimum. Elements are linked to the frame by a silent block system with 4 rubber dampeners which absorb all vertical stresses and require no recurring greasing as alternative systems do.

PRODUCT DETAILS

Make	Maschio Gaspardo
Model	VELOCE 200C
Working Width	2000mm
Tractor HP	60-80hp
Weight	1310kg
SKU	MG-VELOCE-200C
