

NEW HOLLAND T4.90LP - TIER 4 TRACTOR

Worthy heirs of the legendary Fiat 66 LP Series, the New Holland T4LP low-profile tractors put new features and improved features at the service of farmers to meet their needs 100%. Low profile, low centre of gravity and excellent power-to-weight ratio make them the ideal vehicle for companies operating on hilly and mountainous terrain, but also for large orchards such as olive groves and citrus groves.

PRODUCT DETAILS

Make	New Holland
Model	T4.90LP
Drive System	4WD
Horsepower	86hp
Transmission	16 x 16 Shuttle Command™
Fuel Capacity	88L
Weight	2900kg
Loader	Optional

VERSATILITY OF THE ROADWAY

Depending on the settings of the rims and thanks to the new rear fender extensions, the track can be varied from a minimum of 1,588 mm to a maximum of 2,432 mm. The new T4LP can be configured to work between rows or with wider tracks and larger tire sizes such as 540 / 65R28.

NEW HOLLAND IN THE WAKE OF THE TRADITIONAL LP FAIR

Between 1985 and 2001, Fiat produced the 66 LP and 86 LP models. With a reduced overall height and wide axles for optimum stability on slopes, these compact low-profile LP models quickly became the preferred tractors to operate on the most difficult terrain. The New Holland T4LP tractors have the same DNA as their proven FIAT predecessors but revisit their features in a modern way to offer more performance, comfort and safety and a better economy of consumption. By offering customers the possibility to choose between the cabin version and the ROPS platform version, New Holland confirms itself as the obligatory choice in the small tractors sector with 75 to 107 hp for use on demanding terrain.
