PRODUCT DESCRIPTION

CLEARANCE WHEN IT MATTERS

New Holland understands that crop clearance is critically important to the success of some farming operations. The TS6.120 HC tractor nimbly manoeuvres down rows of speciality crops with ease.

COMFORT ON HIGH

If maximum comfort is on your mind, choose the all-weather cab and control your own climate. However, if you enjoy being outdoors, choose the spacious flat-deck platform.

THE TRANSMISSION YOU NEED

The Series TS6.120 HC tractor is available with your choice of two creeper transmissions. Both transmissions are synchronized, allowing you to shift on the go without grinding gears. A dedicated left-hand shuttle lever allows for easy forward/reverse shifting. Creeper engagement is via a rocker switch on the RH console

TRACTION WHEN YOU NEED IT

Standard electro-hydraulically activated front-wheel drive (FWD) allows you to engage FWD on-the-go for extra traction and reduced wheel slip.

OTHER FEATURES

- Standard with 4 sets of remotes
- Choice of three tyre options
- Reversing Alarm standard
- Mechanical draft control
- 540/1000 PTO with replaceable shafts
- 3 years Warranty with Service Plus Protection Plan
