

PELLENC EXCELION 2000 HEAVY DUTY BRUSHCUTTER

A powerful, light, multi-function brush cutter. The Excelion 2000 brushcutter is designed to make your work easier and provide a solution to all your needs in terms of handling, durability, and balance. Equally effective for normal maintenance work or intensive cutting, the Excelion 2000 perfectly clears away tall, dense grasses, woody growth, brambles, and shrubs. Quiet and pollution free, with little vibration when operating, it is comfortable and effortless to use for long periods. It adapts to many uses, with its interchangeable multifunction heads. Dual handle, Heavy duty unit, 45cc equivalent. Head purchased seperately (ST)

PRODUCT DESCRIPTION

Ergonomic

- Perfect balance of the tool for improved working comfort.
- The carrying harness supplied with the tool allows great freedom of movement.
- The blade can be changed very quickly: 20 seconds for the City Cut, for instance.
- New user-friendly hook allows quick release of the brush cutter.
- Comfortable Soft Touch handle.
- Quick adjustment of the handlebar to suit the user's body shape; no need for tools.
- Patented PELLENC system for quick loading of trimmer wire in the head.
- The new TAP CUT 2 cutting head enables loading without opening the head.

Multifunction

- 6 different interchangeable blade types to adapt to any work site.
- Two wire heads: manual or semi-automatic.
- Can be used for a variety brush clearing jobs: tall, dense, or woody growth, brambles, or bushes.
- For intensive cutting, brush cutting, mulching, or sawing branches up to 8 cm in diameter.

Lightweight

- 25% lighter than an equivalent petrol brush cutter.
- Ergonomic carrying harness as standard, designed to reduce effort for several hours of work.

Productive

- Power equivalent to a 45-cc petrol brush cutter.
- Up to six hours working time in ECO mode with the new 1500 battery.
- No motor maintenance or use of blended fuel means the user saves on costs (minimum €5/day) and simplifies logistics on the ground.
- Adjustable brush cutting rate with two modes: ECO or full power, depending on the type of material to be cut.
