PRODUCT DESCRIPTION

- Standard clearance radius rods
- 4-pt harness
- Vented full doors
- 73.12cm useable travel
- Maxlink suspension
- 32" tyres and aluminium 5-lug wheels

Thrilling Power. Rugged Strength.

You won't approach any off-road challenge the same again. The Turbo R sets the bar for performance side-by-sides. It's incredibly responsive, remarkably agile and ruggedly strong.

Power

Power over dunes, trails and rocks effortlessly with a 181 HP turbo-charged engine that's proven to perform. Designed for instant corner-to-corner acceleration and offers more torque in low gear so you can take on any challenge and any trail.

Strength

Taking on the most challenging off-road conditions requires extreme durability and the Turbo R delivers with a rigid one-piece chassis with huge boxed steel suspension.

Control

From a stout 74" width for unbelievable stability to massive 71.12 cm of usable travel and all-new DYNAMIX DV active suspension, the impressive stance and suspension of Turbo R give you the confidence to chase bigger thrills.

181-HP Turbo-Charged Engine

Get power-on-demand from this 181-HP 4-stroke DOHC twin-cylinder turbocharged machine delivering intense corner-to-corner acceleration. And when low and slow is what you need when coming across technical terrain, Turbo R offers plenty of low gear to crawl over anything.

Electronic Power Steering

Rack-mounted, high assist electronic power steering with quick turn rack delivers confident control in and out of corners and across uneven terrain.

Power Up Your Day

Accessories are power hungry. Turbo R makes it easy to feed them with a 900 watt stator and the quick-connect Polaris Pulse System.

All-New DYNAMIX DV

The industry's most sophisticated suspension independently adjusts compression and rebound to keep the Turbo R in contact with the ground on even the most extreme terrain now with four selectable suspension modes.

MaxLink Suspension System

The all-new MaxLink Suspension System brings revolutionary strength by attaching the front shocks directly to the lower arms allowing for longer shocks. In back, the patented thru-arm rear toe link helps minimize bump steer throughout the massive travel so you can stay in control.

Ultra-Stable Stance

Turbo R's aggressive 74" stance and 243.84 cm wheelbase create a rock solid platform that lets you take full advantage of the 40.64 cm ground clearance and 71.12 cm of usable travel.

Robust Suspension

Hit the whoops and the rocks with confidence. Huge boxed steel front a-arms, double-shear joints, M14 bolts and more are engineered to take on the roughest terrain.

One-Piece Chassis

Boasts a rigid one-piece chassis to keep everything firmly in place and allow the machine's suspension to do their part so you can keep pushing the extremes repeatedly knowing your ride is up to the test.

UNITIZED HUBS

Unitized hubs protect your bearings from dust, sand and dirt. Your RZR Turbo R will operate at its prime longer, and you'll have the freedom to ride even farther off-road.
