PRODUCT DESCRIPTION

THE BEAST. BIGGER & BADDER.

72" Width. 168 HP. 32" Tires. 25" Usable Travel. When the terrain is unrelenting and landscape unknown, there's no room for pretenders.

WORLD-PROOF

Industry's Toughest Machine The new RZR XP 4 Turbo S has been completely re-engineered to be stronger and tougher in every respect. The vehicle's bold dimensions and massive stance have been integrated into a more stable design that delivers ruthless performance that can't be stopped.

RUTHLESS RAMPAGE

Industry's Most Capable Suspension So smooth it defies the laws of gravity. So smart it practically rewrites them. The RZR XP 4 Turbo S combines the most useable suspension travel in the industry with the most intelligent suspension system for active, on-the-fly terrain obliteration.

"25" USABLE TRAVEL

RZR XP 4 Turbo S gives you an industry-leading 25"" of usable travel, the kind that you can actually use in a driving event before bottoming out on the skid plate.

FOX 3.0 IBP LIVE VALVE SHOCKS

New upgraded Internal Bypass FOX Shocks feature enhanced calibration for the DYNAMIX Active Suspension system to optimize every single inch of the massive suspension travel for both low-speed comfort and high-speed performance, on-the-fly

DYNAMIX ACTIVE SUSPENSION

DYNAMIX was designed so you no longer have to choose between setting your suspension for a comfortable ride or for performance. Now you get the best of both every time you ride because DYNAMIX adjusts automatically as you're driving.

ALL NEW DESIGN INSIDE & OUT

Inside the dark heart of the beast, the entire cockpit has been reengineered — instinctive in nature, intuitive in control, and purposeful in detail. Beyond these comfortable confines, predatory looks. Blacked-out highlights, painted hues, and menacing LED lighting reveal the vehicle's true primal purpose.

NEW DRIVING POSITION

A new driving position is mated to a sculpted hood design resulting in uncompromised sight lines and race-inspired, yet comfortable ergonomics. Plus, 4-point harnesses and new premium Flat-Bottom Sparco steering wheel now come straight from the factory.

RACE-INSPIRED COCKPIT

The bold new sculpted dash houses a revised gauge package that offers greater diagnostic detail when navigating rugged terrain at speed. Standard 7-inch Ride Command Screen and enhanced storage solutions bolsters connectivity and capability.

PRIMAL ILLUMINATION

Visually assaulting LED lighting not only helps to define the menacing stature of the new RZR XP 4 Turbo S, it also greatly enhances visibility. The new LED lighting package includes blacked-out LED headlights, signature LED running light, and high-visibility LED taillights.

TURBOCHARGED FURY

168 HP, 114 FT-LBS

From the moment you stomp the accelerator, the world's most powerful RZR comes alive with a chaotic fusion of raw power and mind-numbing acceleration. Speed is electrified with aggressive throttle mapping and a forced charge of induction creating an enviable combination of horsepower and our signature low-end torque others can only follow.

APEX HUNTER

Industry's Most Agile 72"

By combining a flick-able wheelbase with the stabilizing inertia of massive tires, RZR XP Turbo S was engineered to combine ground-bending performance without compromising agility and precision. Meanwhile, other competitors keep falling short when it comes to off-road agility. Click on the video to learn more.

RIDE COMMAND

Connect beyond the terrain of the off-road experience with revolutionary Ride Command technology. Communicate, navigate, connect, track and visualize every moment with brilliant 7" glove-touch screen clarity.
