SKU

POL-RZRXP TURBOS

PRODUCT DESCRIPTION

FEAR THE BEAST

72" Width. 168 HP. 32" Tires. 25" Usable Travel. When the terrain is unrelenting and landscape unknown, there's no room for pretenders.

WORLD-PROOF

Industry's Toughest Machine

The new RZR XP Turbo S has been completely re-engineered to be stronger and tougher in every respect. The vehicle's bold dimensions and massive stance have been integrated into a more stable design that delivers ruthless performance that can't be stopped.

RUTHLESS RAMPAGE

Industry's Most Capable Suspension

So smooth it defies the laws of gravity. So smart it practically rewrites them. The RZR XP Turbo S combines the most usable suspension travel in the industry with the most intelligent suspension system for active, on-the-fly terrain obliteration.

ALL NEW DESIGN

INSIDE & OUT

Inside the dark heart of the beast, the entire cockpit has been reengineered — instinctive in nature, intuitive in control, and purposeful in detail. Beyond these comfortable confines, predatory looks. Blacked-out highlights, painted hues, and menacing LED lighting reveal the vehicle's true primal purpose.

TURBOCHARGED FURY

168 HP, 114 FT-LBS

From the moment you stomp the accelerator, the world's most powerful RZR comes alive with a chaotic fusion of raw power and mind-numbing acceleration. Speed is electrified with aggressive throttle mapping and a forced charge of induction creating an enviable combination of horsepower and our signature low-end torque others can only follow.

APEX HUNTER

Industry's Most Agile 72"

By combining a flick-able wheelbase with the stabilizing inertia of massive tires, RZR XP Turbo S was engineered to combine ground-bending performance without compromising agility and precision. Meanwhile, other competitors keep falling short when it comes to off-road agility. Click on the video to learn more.
