<b>Weight</b>	80kg
<b>SKU</b>	SILVAN-SQF400D-4

## PRODUCT DESCRIPTION

- 4 Stroke 5.5Hp GX160 Honda 163cc
- Manual recoil rope start
- 80psi max pressure, 415L/min open flow
- 30m hose reel, max nozzle flow rate approx 20L/min
- 1090mm H x 1060mm W x 900mm L
- Unit fully assembled and tested ready for use

**Tank:** A 400L UV Stabilised Impact resistant Polytuff tank with internal baffle to reduce surge when travelling. A 255mm screw type lid and strainer with a drain Bung for easy empty and cleaning

**Engine:** A 4 stroke, 5.5 Hp GX160 Honda 163 (cc) with manual recoil rope start. Low oil protection. The oil used is SAE 10W 30 (600ml). A twin stage - foam prefilter with paper final element

**Fuel Tank:** A capacity 3.1 Litres (Unleaded) with approximate fuel consumption @ full load 1.7L

**Pump Specifications:** A Viton equipped internal seal, O-rings & gaskets. Fitted for improved chemical resistance. Important: Please seek specialist advice from chemical supplier if pumping chemicals. Use of aggressive chemicals may void warranty

**Pump Performance:** A maximum output 415 (L/min) and Max Pressure 80 (PSI). A direct coupled single centrifugal impeller. Inlet 1 x 1.5". Outlet 2 x 1.5" (Spare). 2 x 1" used for the Hose reel & 3-way valve to deliver water back to the tank

**Hose Reel:** Manual wind with Heavy duty powder coated steel. A 30m ¾" ID delivery hose with adjustable nozzle and an approximate flow rate 20L/min. At full load, distance of water directed from the adjustable nozzle can be up to approximately 20m

**Tank run time (full of water):** Approximately 20 minutes

**Dam Fill Kit (factory fitted):** A 6m suction hose and filter with camlocks for easy use and storage. 1 x 3-way valve fitted to the pump that changes the position of suction from the tank to using Dam fill kit. 1 x Ball valve fitted to deliver water from the pump to the tank

**Other:** Engine has been filled with oil but no fuel. Do not run dry.
