Independent Control Levers

Control levers for broom engagement and ground drive allows you to disengage and engage the broom at any point while you're driving.

Variable Speed

With 6 forward and 2 reverse speeds and shift-on-the-fly transmission, the variable speed technology allows you to walk at your own pace with no effort.

Power Steering

Wheels can be disengaged independently or simultaneously with trigger controls - making turning, reversing and steering easy for anyone.

Durable Construction

Toro's Power Broom is built to last. Its robust frame is specially constructed for ultimate strength and durability. The reinforced handle bars and heavy-duty gearbox stand up to years of the toughest conditions.

Integrated Tie-Down Points

Four integrated tie-down points are built right into the frame of the machine so you can secure quickly and transport safely.

Pin Height of Brush System

Eliminate brush wear and surface damage. Our unique pin height-of-brush system allows for precision height adjustment up to 0.32 cm increments. No more tricky screws and time wasted leveling.

Broom Angle Adjustment

An easy to use thumb latch lets you change the angle of your broom by 20 degrees in either direction, allowing you to sweep the debris away from your path and where you want it.
