PRODUCT DESCRIPTION

These EFI models also use up to 25% less fuel than equivalent non-EFI mowers. The rear discharge design allows operators to trim on either side of the deck — no need to change direction to avoid discharging debris on roadways, sidewalks or flowerbeds. Clippings are dropped within the path of the mower, saving time and cleanup.

The Tweel Turf Tyres means no air pressure to maintain, no flat tyres, no compromises. Extra long wear life two to three times that of a pneumatic tyre at equal tread depth.
