

VICON RV5116 ROTOR FEED BALER

New Net Wrapping – Simplified – Higher Speed. The RV 5000 series comes with the new patented Vicon PowerBind net wrap system. This completely redesigned system has been simplified enabling a significant reduction in elements needed, with feed rollers having been completely eliminated. Additionally the PowerBind provides one of the fastest net wrap actions available - minimum downtime and maximum time baling.

The net is fed directly into the bale chamber by an injection arm in a flat movement angle to keep the net tight at all times providing accurate and reliable net injection. There is no interference from external factors such as wind and crop.

PRODUCT DETAILS

Make	Vicon
Model	RV 5116 RotorFeed
Bale Chamber Dia. Min.-Max.	0.80m-1.65m
Length	4480mm
Width	2520mm
Height	2700mm
Weight	2840kg
Tractor HP	64hp

VICON-RV5116-RF

PRODUCT DESCRIPTION

The net is constantly retained by the injection arm, and when the bale is 90% complete the injection arm moves forward, ready for the net injection. Vicon PowerBind is one of the fastest net wrapping solutions available today, adding more uptime. In addition PowerBind offers very low loading height, for maximum convenience and time saving. To replace the empty roll, just swing out the shaft and replace it with a new one.

- Rotor Feed Intake System
- Large 2.2m wide 5 tyne bar pick-up
- PowerBind direct injection net wrap system
- Parallelogram hydraulic drop floor for superior unblocking
- Intelligent density 3D multi chamber bale density control
- Easy and simple loading of net wrap
- Central Greasing System
